

R Systems International Limited Is Now Great Place To Work Certified

Date: 12 February 2024

Location: Noida, India

R Systems International Limited, a leader in digital product engineering and technology solutions, announced its achievement of being certified as a Great Place To Work® in all ten countries where it has a full-time workforce. This notable recognition spans across India, USA, Canada, Singapore, Poland, Romania, Moldova, Malaysia, Indonesia, and Thailand, each country individually acknowledging R Systems as a preferred employer.

This certification is a testament to R Systems' dedication to creating an inclusive and dynamic work environment across its global operations. It highlights the company's commitment to building a culture that values trust, collaboration, and innovation.

Nitesh Bansal, CEO and Managing Director of R Systems International Limited, shared, "Achieving the Great Place to Work Certification™ across all ten countries where we operate reflects our vibrant culture and commitment to excellence. It validates our efforts in creating a workplace where everyone feels valued, heard, and empowered. We are immensely proud of this achievement and remain dedicated to nurturing a work environment that thrives on respect, transparency, and collective innovation everywhere we operate."

Since its inception, Great Place To Work® has been the global authority on workplace culture. The certification R Systems has achieved in each of these countries is based on rigorous analysis of employee feedback.

About Great Place to Work:

Great Place To Work is the global authority on workplace culture. Their proprietary methodology and platform enable organizations to capture, analyze, and understand the experience of employees. Since 1992, their Certification, Best Workplaces™ Lists, and global benchmarks are built on data from more than 100 million employees in 150 countries worldwide.

About R Systems:

R Systems, a Blackstone portfolio Company, is a leading digital product engineering company that designs and develops chip-to-cloud software products, platforms, and digital experiences that empower its clients to achieve higher revenues and operational efficiency. Our product mindset and engineering capabilities in Cloud, Data, AI, and CX enable us to serve digital product companies in the high-tech industry and leaders in telecom, media, finance, manufacturing, health, and public services verticals. R Systems uses its expertise in automation and integration, including RPA and No-Code- Low-code platforms, to help enterprises achieve their OKRs. We deliver this by helping our clients digitize entire value chains and infusing intelligent automation.
